Fun Fridays

Fridays at Constellation just keep getting better. Sure, everybody loves Fridays, but ours are special. We always have pizza for lunch, and there's something about pizza that brings everyone together in our courtyard. After lunch we go to Peacebuilders class, where we enjoy school-wide activities that help us to focus on creating our vision of peace. Last Friday was dubbed Freaky Friday, since students found that all the teachers had switched classrooms for the Peacebuilders lesson!

School is out at 1:30 p.m. on Fridays, but the after-school activities are too fun to miss. Artist Karen Wall Garrison recently joined our Constellation family, and her art classes are inspiring. Students learn about the style and technique of great artists from history, but they spend the majority of the class time creating their own works of art. We are looking forward to our first art show on the evening of our annual Multicultural Celebration!

Art students Elizabeth Sanchez, Emily Fierro and Fabiola Sanchez proudly display their art.
