

# Building Foundations for Life, One Principle at a Time.

## PeaceBuilders Workshops

The faithful implementation of PeaceBuilders results in increased attendance, improved API scores, pro-social interactions among youth and a decline in suspension rates, school violence, and disruptive behaviors.

PeaceBuilders Workshops support the implementation of your PeaceBuilders program, provide a valuable review of PeaceBuilders essentials and offer new activities and solution building strategies that will offer your staff the PeaceBuilding skills they require to spend more time teaching and less time disciplining.

### PeaceBuilders Essentials

This four hour comprehensive workshop is designed for staff members who are new to a site where the PeaceBuilders program has been implemented and for sites that have not been trained in several years. It prepares adults with essential skills to understand and successfully implement the PeaceBuilders program.

### New Activities and Solution Building

This three hour interactive workshop consists of an assessment of your PeaceBuilders program with discussions and planning to address solution building opportunities. It also includes new activities to enrich your site's implementation of the program.

### New Activities

This two hour workshop offers an extensive focus on new activities to enhance your PeaceBuilders program. It is ideal for sites that have been using the program for more than one year and are ready for some new and inspirational ideas to expand the PeaceBuilders program.

### PeaceBuilders for Support Staff

This two hour workshop delivers an overview of the PeaceBuilders program and provides support staff members with essential skills to work more effectively with children at your site. This workshop is also offered in Spanish.

### PeaceBuilders for Parents

This two hour workshop is designed to coach parents in techniques they can use to create a more peaceful home. Parents will learn that practicing PeaceBuilders at home will improve their child's educational experience and their pro-social skills. This workshop is also offered in Spanish.

These PeaceBuilders Workshops are only available to licensed PeaceBuilders sites. Other restrictions may apply. Call PeaceBuilders for details.

Create safe and positive learning environments. To enhance your PeaceBuilders program, call 877-473-2236.
