Rogers School in Fairhaven celebrated with schools across the nation and in U.S. Territories by participating in Pinwheels for Peace. Students from kindergarten through 5th grade participated in an All School Assembly where, as **PeaceBuilders** they recited the **PeaceBuilder** pledge and sang a song of peace. Afterwards, students shared their commitment to peace with the neighborhood, by decorating the perimeter of the school yard outside with peace pin wheels hand made by each child as part of an art class project.
